**Presentation Title:** Activating an Early Warning Indicator System in San Jose Unified School District

**Description:** San Jose Unified School District will share their experience in developing a set of Key Performance Measures parallel to implementing and deploying OpStat, a system of accountability and support focused on improving student outcomes across TK-12. These Key Performance Measures, in conjunction with OpStat, have allowed SJUSD to align practices, resources, and expectations that focus on commonly held expectations and increased outcomes for students in the areas of College Readiness (academic preparedness, academic tenacity, and college knowledge).
